

Energy Committee Meeting

Thursday, April 7, 2011

6:00 pm

Rowe Town Hall

Agenda

I **Meet with Peggy Sloan** of Franklin Regional Council of Governments to continue to assist Rowe to prepare an **overlay zoning bylaw to provide for a large-scale solar PV installation** with possible provisions for as-of right 10 kW and under installations and perhaps a third Solar PV as-of- right area in the Yankee Land space. This bylaw once finalized, and if approved by the town, would qualify Rowe for Criterion 1 (and perhaps criterion 2) of the Green Communities Act. This technical assistance is funded by the federal DLTA (District Level Technical Assistance) program.

SHOULD TIME ALLOW, CONSIDER SOME OF THE BELOW:

II Report on the **wrap-up of the Siemens Guaranteed Savings Performance Contract**

III Report on the **Rowe Elementary School Solar PV wrap-up**

IV Progress with finding additional Energy Committee members

V Determine topics for **Rowe Reader article** for March and **Goal Post article** for April

VI **Write Criterion Number 3** for Green Communities (Energy Conservation Plan). Include baseline data for Diesel and Gasoline vehicle consumption and a projection of savings over the next five years, if any.

Jack Packard, Chairman
